

A revolutionary new lockset.

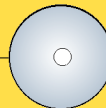

T-Zone™

still
Accept no substitute. There is no equal!

- Unequalled strength and durability from unique T-Zone construction
- Withstands more than THREE TIMES national ANSI/ BHMA Grade 1 torque resistance requirements. Over 3000 in/lbs of excessive force or extreme abuse.
- Cycles to over 8 MILLION lever cycles. TEN TIMES ANSI 156.2 Grade 1 requirements
- Eliminates lever sag even after 8 million cycles
- Only 45° lever rotation required to retract the latchbolt
- No thru-bolts, fits standard 161 prep
- Numerous key systems available: standard, interchangeable core, removable core, Signature, SARGENT V-10 and XC
- 2 small and 2 large rose designs, 4 ADA lever designs
- The only cylindrical lock on the market available with security lever catch feature for high vandalism applications
- 10 year limited warranty. No service required to maintain warranty!
